

Fire Operations in the Wildland Urban Interface Workshop – Palomar Mountain

Learn the principles firefighters use to protect your home and your community.

Saturday, August 24, 2019, 8am — 4:00m

Time: Registration refreshments, and networking at 7:30am
The course will start promptly at 8am

Location: Station 79, 21610 Crestline Road, Palomar Mountain, 92060
The course is free to local residents, representatives of community Fire Safe Councils, and CERT members.

Lunch will be provided. Registration required.

Conducted by: Thomas Shoots, CALFIRE / San Diego County Fire Authority

About the training:

- A one-day, in-depth course to learn the principles used by firefighters in suppressing wildland fire and protecting structures in the Wildland Urban Interface.
- Participants will learn about fire behavior prediction. They will apply this knowledge to the community's unique topography, fuels, weather, and the fire safety challenges, including how to best protect your home from wildfire.
- The training will include a field trip to selected homes to do a site assessment on lessons learned.
- The day will include discussion about survival tips based upon evacuation procedures.
- Please register at: www.firesafesdcounty.org
- For more information or help with registration, contact Britney Munoz at the Fire Safe Council of San Diego County at 619-562-0096.

This workshop is hosted by the Palomar Mountain FSC & administered by the Resource Conservation District of Greater San Diego County, in partnership with the Fire Safe Council of San Diego County. Funding is provided by the United States Forest Service & a National Fire Plan grant from the Cooperative Fire program of the U.S. Forest Service through the California Fire Safe Council. Special recognition is given to the workshops originators. In accordance with Federal law and U.S. Department of Agriculture policy, this institution is prohibited from discrimination on the basis of race, color, national origin, sex, age, or disability.
