

Fire Operations in the Wildland Urban Interface Workshop – Julian

Learn the principles firefighters use to protect your home and community.

Saturday, March 7, 2020, 8:00 am — 3:00 pm

Time: Registration, refreshments, and networking at 7:30 am

The course will start promptly at 8:00 am

Location: Julian Jr. High School, 1704 Cape Horn Ave., Julian, CA 92036

The course is free to local residents, representatives of community Fire Safe Councils, and CERT members.

Lunch will be provided. Registration required—Seating is limited to 30.

Conducted by: Capt. Thomas Shoots, San Diego County Fire/CAL FIRE

About the training:

- A one-day, in-depth course to learn the principles used by firefighters in suppressing wildland fire and protecting structures in the Wildland Urban Interface.
- Participants will learn about fire behavior prediction. They will apply this knowledge to the community's unique topography, fuels, weather, and fire safety challenges, including how to best protect their homes from wildfire.
- The training will include a field trip to selected homes to do a site assessment on lessons learned.
- The day will include discussion about survival tips based upon evacuation procedures.
- Please register at: JulianWUI.eventbrite.com

This workshop is hosted by the Julian Fire Safe Council. It is sponsored and administered by San Diego County Fire Authority, in cooperation with the California Department of Forestry and Fire Protection (CAL FIRE).
