## ***Sustainable Management of California's Fire-Prone Landscapes: Using Grazing to Help Keep Communities Safe***

CALIFORNIA  
FIRE SCIENCE  
CONSORTIUM

The California Range Management Advisory Committee, an advisory body to the California Natural Resources Agency, is co-hosting a virtual workshop with the California Fire Science Consortium to discuss the use of prescribed livestock grazing as a sustainable fuel reduction and environmental management tool.

Three separate workshops in November will be **from 10AM-12PM** followed by an optional virtual networking hour where participants can engage with each other and ask questions.

### **Wildland Fuels: A Primer for Concerned Citizens & Grazers**

November 5<sup>th</sup>, 2020

Registration [Link](#)

### **Using Grazing for Fuels Management 101: Practices & Strategies**

November 12<sup>th</sup>, 2020

Registration [Link](#)

### **Organizing Community-Based Wildland Fuels Management Projects: Approaches and Examples**

November 19<sup>th</sup>, 2020

Registration [Link](#)

*Additional meeting materials are on the [Workshop Webpage](#) and recordings will also be available afterwards on the [Range Management Advisory Committee's Webpage](#).*
