*This course is free to local residents, representatives of Fire Safe Councils, and CERT members.*

## About the training:

A course for community members designed to address wildfire entrapments and human survival within the infinite variability of the wild land fire environment.

Some topics covered include recognition primed decision-making, open-source fire intelligence, contingency planning, and other practices that many enhance the likelihood of human survivability in a fire entrapment scenario.

This workshop is hosted by the Outer Jamul FSC & administered by the Resource Conservation District of Greater San Diego County, in partnership with the Fire Safe Council of San Diego County. Funding is provided by the United States Forest Service, San Diego River Conservancy, and San Diego Gas and Electric. Special recognition is given to the workshops originators. In accordance with Federal law and U.S. Department of Agriculture policy, this institution is prohibited from discrimination on the basis of race, color, national origin, sex, age, or disability.
