- How you, your family and neighbors can mitigate the danger at home and prepare yourselves for wildfire ahead of time.
- How to navigate new laws and regulations concerning home hardening and defensible space.
- How firewise landscaping and home hardening can protect your home.
- The answers to your questions from experts.
- How you can help build wildfire resiliency in our community.

Learn how you can make a difference!

Presented by

May is National Wildfire Awareness Month, and there's never been a more critical time for communities like ours to prepare for the possibility of wildfire.

This family-friendly event will bring together first responder agencies, professionals and community partners (including special guest Smokey Bear!) with residents to meet informally, inspect firefighting equipment and raise awareness of the wildfire challenges Olivenhain faces. *Schedule available at olivenhainfsc.org.*
