

LAST CHANCE SURVIVAL SIMULATION WORKSHOP

SAN ELIJO HILLS FIRE SAFE COUNCIL

The Last Chance Survival Simulation Workshop was developed to empower residents in high-risk, wildfire prone communities, to prepare for evacuation and potential wildfire entrapments. Each year, it becomes more apparent that there is a need to enhance wildfire safety and evasion training for at-risk communities.

About the training:

- This in-depth workshop covers recognition primed decision-making, open-source fire intelligence, contingency planning, and other practices that may enhance the likelihood of surviving a fire entrapment scenario.
- This workshop expands upon "Ready Set Go", a widely accepted statewide standard for wildfire preparation, and builds on topics covered in the "Fire Operations in the WUI" workshop.
- Our instructors will apply the case studies, planning models, and other information covered in the course, and apply it to your community's unique landscape, challenges, evacuation corridors, and potential "Temporary Refuge Areas".

Workshop Logistics:

When: Thursday, March 5th

Time: Doors open and registration begins at 5:15pm. The workshop starts promptly at 6pm and will wrap up around 9pm. Local insurance experts will be onsite from 5:15-6:00pm to answer homeowner questions prior to the event.
